

I listen to K-LOVE between 3-8 hours a day. As a resident of my local community in Missouri, it is a great way to connect with Christians on a national level. If you displace K-LOVE radio station with an LPFM broadcaster which provides other programming, you would have a devastating effect on my life. K-LOVE gives me hope on a day to day basis. It reinforces to me that living the Christian life, with all of it's up's and down's, is worth it. I believe that is why so many of my friends also listen to K-LOVE. Plus, there are events K-LOVE lets me know about in other states that I would be interested in attending, that I would never know about if not for this radio station. K-LOVE is vital to me and my community. Please don't take it away!
